

## **Mathematics Truth Project**

1. True    False             $2 + 3 = 5$
  
2. Why do you know your answer to question number 1 is accurate?  
Explain thoroughly.
  
3. If you were explaining your answer to an individual who did not know mathematics, how would your answer be explained? Be thorough in your explanation.
  
4. What is truth?

This is a very complex question. It will require research on the student's part. Not showing any research shows a lack of effort in examining the project.

### General notes on papers:

1. All projects are to have a properly prepared cover page.
2. All projects are to have a bibliography page done correctly.
3. All papers are to be typed.
4. Use Times New Roman 12 point font for the paper.
5. All papers stapled in upper left hand corner.
6. Proper English is to be used. Incorrect use will result in a lower grade.
7. Misspellings will result in significant lower grade.
8. The paper needs to be thorough enough to cover the subject. For example, above question 4 will require a minimum of at least one full page and 2 would be much better.
9. There are no late papers!!!!
