

To Mathematics Students Using My Math Lab

The following is additional information to help bring your success in your mathematics course.

Useful Ideas

Take a Practice Test Click the TAKE A TEST button on the left on your home page. Choose any chapter and take the test. The sample test is usually the “B” test. Once you have completed the practice test you can review it and get immediate feedback. After reviewing yr test, go to the Study Plan to see which topics you still need to practice.

Use your personalized STUDY PLAN Click the Study Plan button on the left on your home page. The test you just took created a personalized study plan that will help you focus on those areas that caused you difficulty. Selected a chapter and then click on the section you want to work on (found in the middle of the page) A list of exercises will appear. You can work each exercise as many times as you want, as the numbers will change each time you do the problem. Some exercise may include video clips and animation for additional help.

Get tutoring: You have access to free tutoring help through My Math Lab. Click on the Chapter Contents button on your home page and find the MATH TUTOR CENTER information at the top of the screen. One can use you're my Math Lab course ID or student access code to register and then get help by calling a toll-free number, or emailing, or faxing the Tutor Center or using an interactive Web feature.

Additional help on MY MATH LAB can be found on the Chapter Contents page by clicking on Student Help viewing the tip sheets, or watching a student tour on how to enter answers.

ADDITIONAL HELP AT RCC – One can use the Study Center and their tutors. One can work on computers in this room as long as computers are available, and have access to a human tutor.
